**DIRECTORS' REPORT**

The directors of Prospect Resources Limited (the "Company" or "Prospect") and its controlled entities (the "Group") submit herewith the financial report of the Group for the half-year ended 31 December 2016.

**DIRECTORS**

The names of the Company's directors in office during the half-year and until the date of this report are as below. Directors were in office for this entire period unless otherwise stated.

- Hugh Warner
- Duncan (Harry) Greaves
- Gerry Fahey
- Zivanayi (Zed) Rusike
- Manana Nhlanhla
- Qingjiao Yu – appointed 18 November 2016

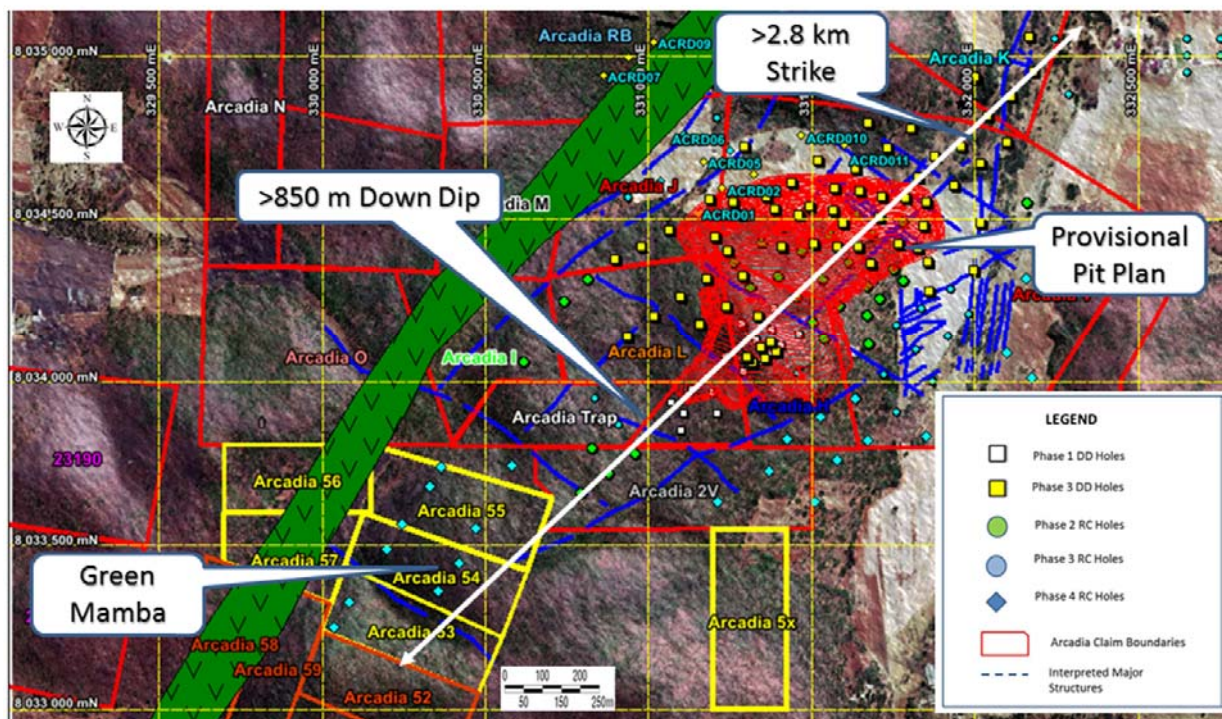

**REVIEW OF OPERATIONS**

**Arcadia Project**

The Arcadia project is a Lithium deposit located 35km north east of Harare, the capital of Zimbabwe. The Arcadia pegmatite swarm has a recognised strike of approximately 4.5km, and Prospect has drilled some 2.8km of this strike length to the North East of the historic Arcadia Lithium Mine. The South West extension covers an area of approximately 1.3km along strike stretching from the historical Arcadia Pit to the historical Green Mamba Lithium deposit.

**PROSPECT RESOURCES LIMITED  
HALF-YEAR REPORT  
31 DECEMBER 2016**

The Company completed a Scoping Study to commence production over a high grade section of its Mineral Resource Estimate. The results of the scoping study were announced on 13 December 2016. The Company is now undertaking a Pre-Feasibility Study over this project and expects to complete this study in Q1 2017.

The Company announced an upgraded Mineral Resource Estimate on 16 March 2017. Refer to Table 1 and 2 below.

**Table 1: Arcadia Lithium Deposit Mineral Resource Estimate Summary (>1% Li<sub>2</sub>O)**

<b>High Grade Zone - 1% Li<sub>2</sub>O Cut-off</b>					
<b>Category</b>	<b>Tonnes</b>	<b>Li<sub>2</sub>O %</b>	<b>Ta<sub>2</sub>O<sub>5</sub> ppm</b>	<b>Li<sub>2</sub>O Tonnes</b>	<b>Ta<sub>2</sub>O<sub>5</sub> lbs</b>

<b>GRAND TOTAL</b>	<b>34,900,000</b>	<b>1.42%</b>	<b>127</b>	<b>494,800</b>	<b>9,700,000</b>

Table 1 above refers to a high grade portion of the Arcadia Project. The total Arcadia Project Mineral Resource Estimate comprises 57.3Mt at 1.12% Li<sub>2</sub>O. Refer Table 2 below.

**Table 2: Arcadia Lithium Deposit Mineral Resource Estimate Summary**

<b>Global Resource – 0.2% Li<sub>2</sub>O Cut-off</b>					
<b>Category</b>	<b>Tonnes</b>	<b>Li<sub>2</sub>O %</b>	<b>Ta<sub>2</sub>O<sub>5</sub> ppm</b>	<b>Li<sub>2</sub>O Tonnes</b>	<b>Ta<sub>2</sub>O<sub>5</sub> lbs</b>
Measured	9,000,000	1.17%	134	106,200	2,700,000
Indicated	24,200,000	1.10%	118	268,000	6,300,000
Inferred	24,100,000	1.11%	133	268,000	7,000,000
<b>GRAND TOTAL</b>	<b>57,300,000</b>	<b>1.12%</b>	<b>127</b>	<b>642,200</b>	<b>16,000,000</b>

A total of 81 DD holes (10,129m) and 115 RC holes (6,082m) were used to generate the above Mineral Resource Estimate.

Prospect has an additional Exploration Target\*\* of 80-100Mt @ 1.2%-1.5% Li<sub>2</sub>O, within flat lying pegmatites.

\*\* The potential quality and grade stated by the Exploration Target is conceptual in nature and there has been insufficient exploration to estimate a Mineral Resource over the Exploration Target area and that it is uncertain if further exploration will result in the estimation of a Mineral Resource.

#### **Farming – Arcadia Surface Rights**

During the period, the Company entered into a government approved farm lease, covering a large proportion of the surface area of the Arcadia Project. Prospect has purchased farming equipment and planted its first maize crop covering some 80 hectares.

This is part of Prospect's commitment to local stakeholders. These farming operations are expected to provide an additional source of employment within the region and a source of income to Prospect. We plan to approach other landholders relevant to Arcadia and offer to farm their land on standard leasing terms for the 2018 season.

#### **Gwanda East Gold Projects**

During the period, additional drilling was completed under the historic workings at Prestwood, however grades were not consistent enough to commence production. The Company has decided to refocus on the historic Sally Mine. As a result of this uncertainty over consistent grades, the Company has provided for capitalised expenditure at Prestwood.

The Sally shaft has been dewatered, a headframe erected and rails delivered for installation. The head gear has been commissioned and shaft rehabilitation was completed by the end of February, with waste rock removed and sent for assay. The mine face has been surveyed and the reef identified. Drilling and blasting is now underway.

#### **Fimpimpa West Copper/Cobalt Project**

Due diligence has been completed by Geoquest

- Initial Exploration Target of 15-25Mt at 1.0%-1.5% Cu.+.
- Drill program being designed to twin historic holes

Note<sup>+</sup> The Fimpimpa West Copper/Cobalt Project has been the subject of historic drilling, exploration however, the Company has not undertaken a detailed exploration programme nor a drilling programme. The Exploration Target is based on previously published data, much of which predates JORC 2012 and the Company's future exploration programme. The potential quantities and grades are conceptual in nature and there has been insufficient exploration to date to define a Mineral Resource. It is not certain that further exploration will result in the determination of a Mineral Resource under the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves, the JORC Code" (JORC 2012).

#### **God's Gift Lithium Project**

Due diligence drilling during the period generated no significant leads, therefore a decision was made to not exercise our option.

#### **Personnel**

During the period, the Company has been successful in building our team with the following key hires:

Gavin Stephens – Financial Consultant

Lee John – Technical Consultant

Mike Kitney – Metallurgy, Process Design Consultant

David Miller – Marketing and Off-take Consultant

We would also like to welcome our non-executive director Mr Qingjiao Yu to the board and his alternate non-executive director Ms Yan Wang.

**Financial Results**

	Half-year ended 31 December 2016	Half-year ended 31 December 2015
	\$	\$
Reported loss after tax	(9,660,602)	(855,964)
Exploration and evaluation expenditure expensed	334,347	-
Impairment of exploration and evaluation/mine properties	1,610,391	503,735
Share based payments expense	6,627,808	47,072
<b>Loss after adjustment for exploration expenditure, impairments and share based payments</b>	<b>(1,088,056)</b>	<b>(305,157)</b>

The loss after adjustment for exploration and evaluation expenditure, impairments and share based payments has increased due to increased operational activities and is in line with expectations.

Exploration and evaluation expenditure expensed relates to expenditure incurred by Prospect Resources Limited on the Arcadia Project, outside of Zimbabwe.

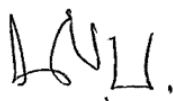

As discussed above under the heading Gwanda East Gold Projects, the Group has impaired the capitalised mine property costs for Prestwood and will refocus on the historic Sally Mine.

The Group issued 115,000,000 options to directors, employees and consultants on 22 July 2016, upon receiving shareholder approval. The main driver in the fair value of these options is the share price on issue date, which increased significantly from when the board agreed the terms and conditions to the date of the shareholder meeting when the issue of options was approved.

**AUDITOR'S INDEPENDENCE DECLARATION**

The auditor's independence declaration is included on page 7 of this report.

Signed in accordance with a resolution of the directors made pursuant to s.306(3) of the *Corporations Act 2001*.

**Competent Person's Statement**

The information in this announcement that relates to Exploration Results, Exploration Targets and Mineral Resources and Ore Reserves is based on information compiled by Mr Roger Tyler, a Competent Person who is a member of The Australasian Institute of Mining and Metallurgy and The South African Institute of Mining and Metallurgy. Mr Tyler is the Company's Senior Geologist. Mr Tyler has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Tyler consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Dear Sirs

**RE: PROSPECT RESOURCES LIMITED**

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Prospect Resources Limited.

As Audit Director for the review of the financial statements of Prospect Resources Limited for the half year ended 31 December 2016, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- (ii) any applicable code of professional conduct in relation to the review.

Yours faithfully

**CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(a) Statement of Compliance**

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 Interim Financial Reporting. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 134 Interim Financial Reporting. The half-year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

**(b) Basis of Preparation**

These general purpose interim financial statements for the half-year reporting period ended 31 December 2016 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: Interim Financial Reporting. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Prospect Resources Limited and its controlled entities (referred to as the "Consolidated Group" or "Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2016, together with any public announcements made during the following half-year.

These interim financial statements were authorised for issue on 16 March 2017.

**(c) Accounting Policies**

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements. The Group has considered the implications of new and amended Accounting Standards but determined that their application to the financial statements is either not relevant or not material.

**(d) Principles of Consolidation**

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent, Prospect Resources Limited, and all of the subsidiaries. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of the subsidiaries is provided in Note 12.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between Group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

**2. SEGMENT INFORMATION**

**Identification of reportable segments**

The Company has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (the chief operating decision maker) in assessing performance and determining the allocation of resources.

In the current year the Company engaged in exploration for minerals in Australia and Zimbabwe. The operations were located in Australia and Zimbabwe with the head office being in Australia.

Fair value after discount	\$0.05763	\$0.05774	\$0.00194

- (i) The options vest upon 20 day VWAP of \$0.03. This occurred during the period and the full expense has been recognised.
- (ii) The options vest upon 20 day VWAP of \$0.01. This was deemed as being two years in the prior reporting period. The vesting condition was achieved in the second half of FY2016 where the full expense was recognised.

**(b) Shares**

The share based payments expense was \$Nil (2015: \$40,000). The following table lists the inputs used:

	<b>Consulting fees</b>
<i>Number of shares issued</i>	10,000,000
<i>Grant date</i>	14/12/2015
<i>Share price</i>	\$0.004
<i>Share based payment expense</i>	\$40,000

**10. EARNINGS PER SHARE**

	<b>Half-year ended 31 Dec 2016</b>	<b>Half-year ended 31 Dec 2015</b>
Basic and diluted loss per share (cents per share)	(0.59)	(0.09)
Amount used in the calculation of basic EPS		
Loss after income tax	(\$9,095,738)	(\$705,994)
Weighted average number of ordinary shares outstanding during the period used in the calculation of basic earnings per share	1,541,514,166	780,401,484

The options of the Company are not considered dilutive for the purpose of the calculation of diluted earnings per share as their conversion to ordinary shares would not decrease the net profit per share nor increase the net loss per share. Consequently, diluted earnings per share is the same as basic earnings per share.

**INDEPENDENT AUDITOR'S REVIEW REPORT  
TO THE MEMBERS OF  
PROSPECT RESOURCES LIMITED**

**Report on the Half-Year Financial Report**

We have reviewed the accompanying half-year financial report of Prospect Resources Limited, which comprises the consolidated statement of financial position as at 31 December 2016, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity, and the consolidated statement of cash flows for the half-year ended on that date, condensed notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration for Prospect Resources Limited (the consolidated entity). The consolidated entity comprises both Prospect Resources Limited (the Company) and the entities it controlled during the half year.

*Directors' Responsibility for the Half-Year Financial Report*

The directors of Prospect Resources Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

*Auditor's Responsibility*

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Prospect Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Whilst we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our review was not designed to provide assurance on internal controls.

Our review did not involve an analysis of the prudence of business decisions made by the directors or management.

*Independence*

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, has been provided to the directors of Prospect Resources Limited on 16 March 2017.

*Conclusion*

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Prospect Resources Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
